> 2026 MIDWEST BIOINFORMATICS TRAINING

TUESDAY & WEDNESDAY, MAY 12-13, 2026
MDHHS Bureau of Laboratories
Lansing, Michigan

> TRAINING OVERVIEW

With this in-person training, participants will not only **gain first-hand experience running a basic bioinformatics pipeline** but will also be able to **understand what each step of the process is doing and why it is important** with educational presentations and facilitated discussions incorporated throughout.

> TARGET AUDIENCE

This training is intended for **beginner-level** bioinformaticians or sequencing/laboratory personnel and genomic epidemiologists who are interested in bioinformatics cross-training.
